Subject: Cedar Springs, Nephi Sandstone, M023/059
CC: Joelle Burns

I talked with Bruce Evans and he stated that they were having some legal troubles with their mineral rights and before they paid for an expensive land survey they wanted to conclude their rights to the property. This means if they truly don't have rights to the property than they would reclaim the property. I told him we would be sending him a letter of non-compliance and ask that he tell his tale of woe to the Associate Director.
